Summary

Results-driven Frontend Web Developer with 3+ years of experience building responsive, scalable, and user-friendly web applications. Skilled in modern frameworks such as React.js, Next.js, Redux Toolkit, and TypeScript, with a strong foundation in UI/UX principles. Passionate about creating intuitive digital experiences and contributing to innovative projects through clean, maintainable code.

Objective

Seeking a challenging role in software engineering or frontend development that leverages my technical expertise, strengthens my professional skills, and contributes to delivering impactful web solutions.

Experience

Frontend Web Developer — Integra Studio (Oct 30 2022 – Present (11 months))

• Manage the maintenance, bug resolution, and feature enhancements for the Movie/Series Application using the Next.js framework.

• Oversee the maintenance, bug fixing, and feature additions for the CMS Admin Application (dashboard, user management, content management).

• Fix bugs in the existing website and build additional modules based on client needs.

• Ensure consistent and intuitive user interfaces across different pages and sections of the site.

• Collaborate with backend developers to integrate frontend components with server-side APIs and databases.

• Handle data retrieval and display, user authentication, and form submissions.

• Work with frontend frameworks and libraries like React to build interactive and dynamic web applications.

• Tech stack: Next.js, React.js, TypeScript, Redux Toolkit, Tailwind CSS, Mantine.

Frontend Web Developer — Highly Succeed (Mar 2022 – Jun 07 2025 (2 years 6 months))

• Maintained and improved multiple React-based applications: Doctor Web App, Patient Web App, Backoffice Web Portal, Ecommerce Web Portal.

• Spearheaded ongoing maintenance, bug fixes, and feature upgrades.

• Collaborated with designers and backend teams to deliver cohesive products.

• Ensured consistent UI/UX across projects.

• Tech stack: React.js, Next.js, Redux Toolkit, Ant Design, Bootstrap, Tailwind CSS, paid templates.

Junior Web Developer — BlueFletch (Jan 2022 – Mar 2022)

• Assisted in bug fixes and added new modules based on client requirements.

• Contributed to improving UI components and overall product usability.

• Collaborated within the team, reporting progress and challenges clearly.

• Tech stack: React.js, Redux, Storybook.

Education

Avion School — Software Engineering Bootcamp (2021)

• 3 months frontend: HTML, CSS, JavaScript, React.js

• 3 months backend: Ruby on Rails

Access Computer College — BS in Hotel & Restaurant Management (2014 – 2018)

Camarin High School (2010 – 2014)

Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, React Native, TypeScript
State Management: Redux Toolkit
Styling: Tailwind CSS, Ant Design, Bootstrap, Mantine
Other: REST API integration, Responsive Design, Git/GitHub
